

EXP NO1: Flight Reservation System

Aim:

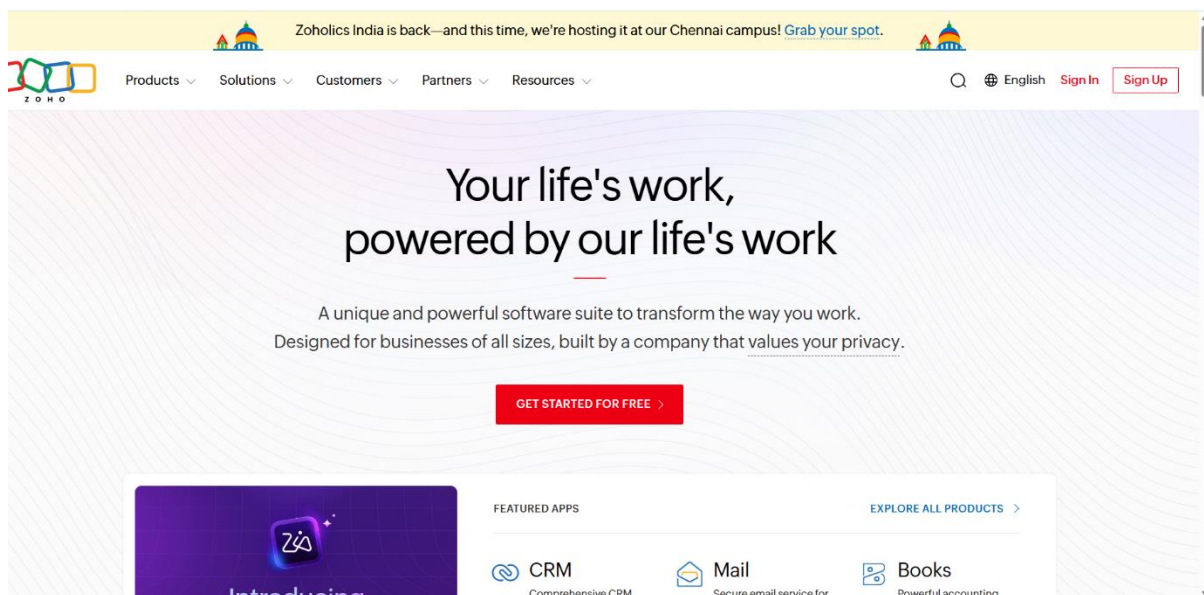

To develop a cloud-based Flight Reservation System using Zoho Creator to demonstrate SaaS.

Steps:

1. Log in to Zoho Creator and click Create New Application.
2. Create a Flight Reservation form.
3. Add fields: From, To, Departure Date, Return Date, Travelers, Class, Fare Type, Flight Type, and Passenger Name.
4. Save the form and create a report to display reservation records.
5. Enter sample data, verify the records, and publish the application.

Implemented:

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

STEP 4: Enter Flight Reservation System as the application name and click Create Application.

The screenshot shows a 'Create from scratch' form. At the top, there are two icons: a blue circle with a white square inside, and a white circle with a plus sign. Below these icons is the text 'Create from scratch'. The form has a light gray background. It contains a text input field labeled 'Application Name *' with the value 'Flight Booking'. Below the input field is a checkbox labeled 'Enable Environment' with a link 'Learn More' next to it. At the bottom of the form is a large blue button labeled 'Create Application'.

STEP 5: Create a Flight Booking form and add all required fields

The screenshot shows the 'Flight Reservation System' application interface. The top bar is light gray with the text 'Flight Reservation System' and two icons on the right. The left sidebar is dark blue with the text 'Flight Reservation System' and a list of menu items: 'Dashboard', 'Flight Itinerary' (with a dropdown arrow), '+ Flight Itinerary' (highlighted in purple), 'Flight Itinerary Rep...', 'Board', 'Fare Details', 'Traveler Details', and 'Flight Search'. The main content area is white and titled 'Flight Itinerary'. It contains a form with the following fields: 'Search ID' (text input), 'Departure Flight' (text input), 'Arrival Flight' (text input), 'Departure Time' (text input with placeholder 'HH:mm:ss'), 'Arrival Time' (text input with placeholder 'HH:mm:ss'), 'Flight Number' (text input), 'Airline Name' (text input), 'Class Type' (dropdown menu with '-Select-' and a downward arrow), and 'Total Fare' (text input with placeholder '#####.##'). At the bottom of the form are two buttons: 'Submit' (purple) and 'Reset' (white with a gray border).

EXP NO 8: Student Counselling System

Aim:

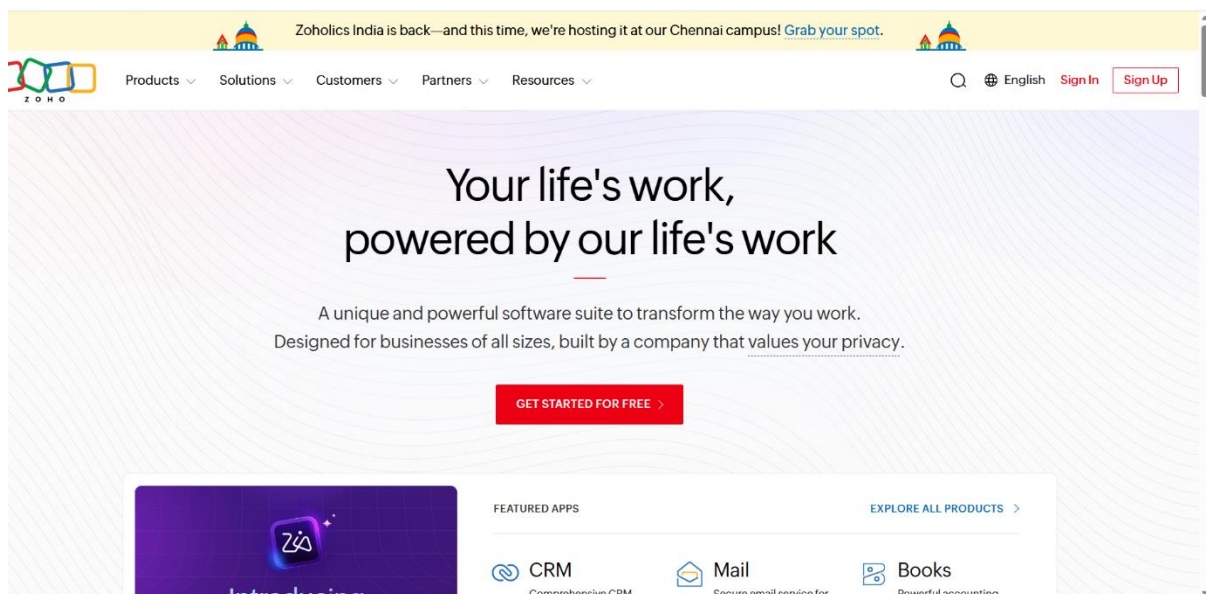

To create a cloud-based Student Counselling System using Zoho Creator.

Steps:

1. Create a new application.
2. Create a Student Counselling form.
3. Add fields: Student Name, Age, Address, Phone Number, Percentage, Year of Passing, and Domain Interest.
4. Create reports to view counselling information.
5. Enter sample records and verify the application.

Implemented:

Step 1: Go to zoho.com

STEP 2: Login to your Zoho account and open Zoho Creator

 Desk Helpdesk software to deliver great customer support. TRY NOW >	 Payroll Effortless payroll processing software for businesses. STEP 3: Click Create New Application and select Create from Scratch

Create New Application

	Create using Zia Build a functional application effortlessly using GenAI Create	
 Create from scratch Create a new application for your business needs Create	 Create from gallery Pick a pre-built application that suits your requirement Pick	 Import from file Import your existing data to create an application Import

STEP 4: Enter Student Counselling System as the application name and click Create Application.

The screenshot shows a 'Create from scratch' interface. At the top, there are two rows of icons: a blue circle and an empty circle, and an empty circle and a plus sign. Below these icons is the text 'Create from scratch'. The main form area has a label 'Application Name *' above a text input field containing 'Student Counselling System'. Below the input field is a checkbox labeled 'Enable Environment' followed by a blue link 'Learn More'. At the bottom of the form is a large blue button labeled 'Create Application'.

Step 5: Add fields: Student Name, Age, Address, Phone Number, Percentage, Year of Passing, and Domain Interest.

The screenshot shows a web application interface. On the left is a dark sidebar with the title 'Student Counselling Mana...' and several menu items: 'Dashboard', 'Academic History', 'Counselling Sessi...', '+ Counselling Session' (highlighted in blue), 'Counselling Sessio...', 'Domain Mapping', 'Student Profile', and 'Progress Tracking'. The main content area is titled 'Counselling Session' and contains a form with the following fields: 'Student' (text input), 'Session Date' (date picker showing 'dd-MMM-yyyy'), 'Session Time' (time picker showing 'HH:mm:ss'), 'Counsellor' (text input), 'Session Topic' (text input), 'Discussion Points' (text area), and 'Next Steps' (text area). At the bottom of the form are two buttons: 'Submit' (blue) and 'Reset' (white).
